ECOSYS P5026cdw
COLOUR PRINTER
FOR A4 FORMAT

THE
PRODUCTIVITY
BOOSTER.

Speed up your office with this new colour printing device. The high-performance print controller, with its 800 MHz CPU, achieves brilliant colour printout results in no time. Moreover, it comes up with a short warm-up phase and reduces the time-till-first-page printing to 9.5/10.5 seconds for b/w and colour. For even more productivity, the device provides Wi-Fi and LAN and offers mobile printing support for professional and easy output of your documents – ideal for optimised and rapid office tasks.

> Up to 26 pages per minute in A4 in colour and b/w
> 1,200 dpi printing quality
> Standard duplex unit for double-sided printing
> Fast time to first page: 9.5/10.5 seconds in b/w and colour
> High performance print controller with 800 MHz CPU
> Wi-Fi and Wi-Fi Direct as standard*
> Mobile printing support including AirPrint, Mopria, KYOCERA Mobile Print
> Compact design with low-noise printing
> Exceptionally low printing costs in its class
*Only ECOSYS P5026cdw

KYOCERA
Document Solutions

ECOSYS ECOSYS stands for ECOlogy, ECOnomy and SYStem-printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that toner is the only consumable. The modular design concept allows you to add workflow enhancing functions as required. Integrated system software provides long-term cross network compatibility. KYOCERA's long-life components cost you and the environment less.

Enviromental print features

Duplex print mode (Double sided printing), N-Up printing mode (N pages on 1 sheet), Toner save mode (Draft print mode), Quiet mode (reduced print speed).

KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows© PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.

Command Center RX

The Command Center RX enables to control and manage various settings by accessing the device via Web browser.

USB Host Interface for USB Flash Memory

Documents can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. The documents stored as PDF, XPS, TIFF or JPEG are selected directly via the printer's control panel. No computer is required.

Application-based Profiles

The KX printer driver can create a direct link between dedicated applications and predefined or customised print profiles. You can set that all documents from a user or an application be printed in b/w with activated duplex mode as standard, thus leading to a reduced toner and paper consumption.
